Table Category: [Dining Tables](#)
Table Top Style: [Imitation Quartz Top](#)
Product Group: [tulip tables](#)
Modernism Style: [Mid-Century Modern](#)

DESCRIPTION

Eero Saarinen, created his Pedestal Collection in the mid-1950s. An integral part of the series, the Tulip Table mimics the same sleek design and pedestal base of the wildly popular Tulip Chair. This stunningly simplistic table is versatile, beautiful and ready to transform your space.

Our table is custom made for us with the standard table height of 29.5 inches (not 28.5 inches like most other sellers have), and we offer a quartz top with the same edge detail as the original.

Quartz is a durable, nonporous material, most commonly used on countertops. Quartz has a variety of different colors and textures, and we have chosen three colors of tops: a white quartz with grey veins, black quartz with white veins and pure white to use on our Saarinen Style Tulip Tables. By its simplicity, it can complement any design choice. This material also comes with a stain resistant finish that gives it a longer life free of discoloration. We have decided to discontinue our offering of Carrara Marble tops due to long term performance of this material. Between the continual upkeep and lack of stain protection offered, we believe the quartz is a superior production for a similar look.

Dimensions (inches):

Overall: 67w x 43d x 29.25h

Weight: 350lbs
