Each bench is handmade using modern furniture construction techniques for superb seat comfort and durability. The cushion surfaces on this model consist of individual panels which are hand-sewn together and have that tufted look between each panel intersection. There are no buttons on the standard version however, you can order matching buttons as an extra cost option. **(Please note that adding the buttons is an additional step for us, and will add about 2 weeks to the order processing times.)** All models have the welting (piping) around the perimeter edges of the cushion and frame. Exposed legs and frame are made of 14 gauge 1 inch square stainless steel tubing polished to a mirror-like finish and have a black rubber foot glide. Our construction techniques provide a solid bench perfect for commercial and residential applications.
