Our version of the Noguchi Coffee Table is an excellent replica at a fraction of the price. Our glass is a solid piece of 3/4 inch (19mm) thick Tempered Glass, featuring a very slight pencil edge detail. The solid ash wood finishing is done in a 14 step high quality commercial grade finish, complete with a top coat application of waterborne poly-coatings that are evened out by a drying tunnel and curing process to guarantee durability and protection of the hardwood.

Read our "Compare Us" section for more information on how our table compares with the official Herman Miller version and other replica makers.
