DESCRIPTION

(Note: This listing is for the Platner dining table base only. If you would like the table with that glass top, please check out our main product listing here: MC-6501.)

Part of the Platner Collection, our dining table is inspired by Platner's designs from 1966 is an elegant addition to your dining room. This iconic piece features steel rods to form the curved table base. Mr. Platner, who worked in the firms of Eero Saarinen and Kevin Roche in the early and mid-1960's, introduced his collection of chairs, ottomans and tables in 1966. Known as the "Platner Collection", in the original design, each piece glass rests on a sculptural base of nickel-plated steel rods resembling a shiny sheaf of wheat. Platner designed both the structure and the production method for these designs, forming his primary contribution to the mid-century modern furniture movement and is still an enduring icon of 1960's Modernism.

While this is a very sturdy base and hold a lot of weight, if you are considering using for your own top, we recommend a minimum diameter of 54 inches (to have adequate leg room) and a maximum diameter of 60 inches (unless you plan on securing the top with some sort of bracket). This base is not suitable for a marble or granite top due to the weight is too much.

Dimensions:

Top Diameter: 34 inches

Bottom Diameter: 20 inches

Height: 28.75 inches

Weight: 110 lbs
